**AMENDMENT to the AMENDMENTS of; 11-12-2004  
( continued from page-1 )**

**(5) Add the following paragraph to the “DETAILED DESCRIPTION OF THE INVENTION”; as the first paragraph / preamble under/of the same said heading.**

**“This present invention is of a vehicle’s differential. It is a combination of two different types of gear drive mechanisms, within the same housing. One being; a pinion differential having bevel-gears and, the other being; a particular type of planetary-gear. The said, “particular type of planetary-gear” having; two sun-gears and, at least one planet-gear and, a planet-gear support fixture / case that is independently rotative of the main drive case. The said, “planet-gear support fixture / case” being; fixed / stationary to one of the drive axles”.**

**Mk 11;33**
